

GlideTex™

Takes your tube to the next level

Offered in a variety of materials and durometers, our proprietary extrusion technique provides a luxurious, silky surface feel with a matte, reduced friction finish for applications requiring superior smoothness and mitigation of drag.

Standard Extrusion

- Continuous extrusion
- Unlimited material offerings
- Glossy appearance
- Reinforcement is both visible and tangible
- \$
- ⚡⚡⚡⚡

Centerless Grind

- Continuous extrusion
- Limited material offerings
- Improved tolerancing
- Improved surface finish
- Requires post processing
- \$ \$ \$
- ⚡⚡

Reflow

- Discrete lengths
- Available in multi-durometer
- Available with stepped OD
- Requires post processing
- \$ \$ \$ \$
- ⚡

GlideTex™

- Continuous extrusion
- Various material offerings
- Matte finish
- Reduced tack
- Superior surface finish
